

Articulation Agreement by Major

Effective during the 2022-2023 Academic Year

To: University of California, Merced
2022-2023 General Catalog, Semester

From: De Anza College
2022-2023 General Catalog, Quarter

Biological Sciences, Ecology and Evolutionary Biology Emphasis, B.S.

ADMISSIONS MAJOR SELECTION CRITERIA

Effective Fall 2023, the introductory BIO course series for majors is changing and BIO 001/001L and BIO 002/002L are being discontinued. The course series is changing such that:

- BIO 011 (Introduction to Molecular Biology) & BIO 011L (Introduction to Molecular Biology Lab) are equivalent to BIO 002 (Introduction to Molecular Biology) & BIO 002L (Introduction to Molecular Biology Lab), respectively
- BIO 012 (Introduction to Organismal Biology) & BIO 012L (Introduction to Organismal Biology Lab) are equivalent to BIO 001 (Contemporary Biology) & BIO 001L (Contemporary Biology Lab), respectively

Starting in Fall 2025, Transfer applicants to the Biology major will require completion of BIO 011 and BIO 011L for selection to the major. BIO 012 and BIO 012L will no longer be required for selection, but recommended to be completed prior to Transfer. Transfer students will also be required to complete BIO 011 and BIO 011L for Transfer Admissions Guarantees (TAGs) starting in the Fall of 2025.

For admission to the **Biological Sciences, Ecology and Evolutionary Biology Emphasis, B.S.** major, students must earn an overall transferable GPA of 2.8 or better, and must complete classes articulated with the following UC Merced courses by the end of spring term prior to fall enrollment or by the end of fall term prior to spring enrollment. All Major Preparation courses requires a "C" or better.

REQUIRED Major Preparation Courses For Transfer:

- BIO 001 AND BIO 001L

IMPORTANT TRANSFER INFORMATION

In addition to the Major Selection Criteria, all Upper-Division Transfer applicants must meet minimum [University of California admissions requirements](#). Visit <https://admissions.ucmerced.edu/transfer/requirements> for more specific UC Merced admissions information.

Prior to Transferring to UC Merced, please be advised of the following for Junior Transfers:

1) WRI 001 and WRI 010 are admissions requirements: In most situations, WRI 001 is fulfilled by IGETC 1A English Composition and WRI 010 is fulfilled by IGETC 1B Critical Thinking/English Composition. However best practice is to complete the articulated course for WRI 001 and WRI 010. Please scroll towards the bottom of the agreement to find the articulation for each course.

2) Transfer Admissions Guarantee (TAG): UC Merced is one of the six UC's that offers Transfer Admissions Guarantee. Please visit the TAG website for more information: <https://admissions.ucmerced.edu/transfer/tag>

3) General Education (GE Requirements): While general education is not required for admission, it can help speed up your time to graduation once you transfer to UC Merced. We highly recommend reviewing the [Transfer Students: Satisfying General Education](#) page in the catalog for a more extensive explanation of the requirements.

Please note the [School of Natural Sciences](#) does not recommend IGETC, but accepts it; students are encouraged to focus primarily on lower division major preparation and fulfilling UCM minimum admissions requirements. If you elect to complete IGETC, the courses may double count with the major courses listed below. Please visit your Community College Counselor to learn more.

4. This agreement displays all lower-division (or Major Preparation) courses required in the major. UC Merced courses on the left, approved (articulated) transfer courses to the right.

5. Changes to this Agreements: Major requirements are subject to change from one academic year to the next. Newly-articulated courses are added on a rolling basis, and articulated courses can be revised. Visit ASSIST every semester for the latest information and consult with an Academic Counselor at your institution on a regular basis.

For more questions about admissions, please email: transfer@ucmerced.edu.

ABOUT THIS MAJOR

The University of California, Merced undergraduate major in the [Biological Sciences](#) instructs students in the study of biology across all of its scales from molecules and cells to organisms and ecosystems. The program teaches biology as a unified and interdisciplinary science, reflecting the foundational importance of chemistry, physics, mathematics, engineering, computer science, and philosophy to our understanding of biological systems. Students learn both the theoretical and empirical bases of knowledge, and how the scientific method is applied to investigate fundamental questions in the field.

For more information on the **Ecology and Evolutionary Biology** emphasis, please visit the [22-23 catalog](#) and the [Four-Year Course Plan](#) (We encourage to visit your Community College Counselor to create an individualized educational plan for transfer)

ALGEBRA AND TRIGONOMETRY PHYSICS NOTE

1. A Year Long Algebra or Trigonometry based Physics are acceptable substitutes for PHYS 018 & 018L AND PHYS 019 & 019L for this major only.
2. California Community College, courses with C-IDs PHYS 105 and PHYS 110 will be accepted towards the year-long Algebra or Trigonometry based Physics series for this major agreement only. Please refer to <https://www.c-id.net/courses> to find the course for your community college. As recommended, best practice is to discuss this option with your Community College Counselor.
3. Students electing to meet the requirement with algebra or trigonometry-based physics may be unable to take advanced, Upper Division courses in human physiology, biophysics and other courses requiring calculus-based physics. Upon enrollment, students should consult with their academic advisor on alternate course options.
- 4.. Students will need to complete the full-year sequence of general physics or calculus-based physics in order to have the requirement satisfied. Students will not be able to mix and match non-calc with calc based physics due to the impact it will have with meeting prerequisite requirements.
5. If you decide on this option, upon transferring to UC Merced, please let your Academic Advisor know so they can help you with a course exemption override.
