Effective during the 2022-2023 Academic Year

To: University of California, San Diego  
2022-2023 General Catalog, Quarter

From: De Anza College  
2022-2023 General Catalog, Quarter

## Public Health with Concentration in Medicine Sciences B.S.

### GENERAL INFORMATION

**DATED MATERIAL, SUBJECT TO CHANGE. PLEASE CONSULT CURRENT UCSD GENERAL CATALOG FOR ANY ADDITIONAL INFORMATION.**

**Effective Fall 2023, major preparation will be required for this major. For details, visit: <http://admissions.ucsd.edu/MajorPrep>**

Public health seeks to improve human health through the development and application of scientific knowledge that helps prevent disease, protects the public from exposure to potential harm, and promotes health throughout communities at the local, national, and global levels.

#### Special Advising Note:

**We strongly advise students to complete as many of the lower-division courses as possible before entering UCSD. Preparing well for the major helps students move efficiently toward graduation.**

The Herbert Wertheim School of Public Health and Human Longevity Science offers courses in epidemiology, biostatistics, social and behavioral sciences, environmental and occupational health sciences, and health policy. The epidemiology and biostatistics areas offer courses on the determinants and distribution of disease at the population level with a focus on analyzing and interpreting public health data using statistical methods. The social and behavioral sciences area offers courses for students interested in how behaviors influence disease. The environmental and occupational health sciences area offers courses on the study of environmental and occupational factors, including biological, physical, and chemical factors that affect the health of a workforce and the community. The health policy area emphasizes the structure, process, and outcomes of health services and policies that are commonly used to motivate people to healthier lifestyles.

All courses taken for the major, both lower-division and upper-division, must be taken for a letter grade. Students must receive a grade of C- or higher in any course to be counted toward fulfillment of the major requirements.

#### Entry to the Major:

To prepare students for success in upper-division courses, the faculty of the Herbert Wertheim School of Public Health and Human Longevity Science have determined that students who want to declare a major in Public Health must first meet all criteria outlined below:

- Completion of FMPH 40 "Introduction to Public Health" with a grade of B- or higher.
- Completion of one statistics course (PSYC 60, COGS 14B, HDS 60, or MATH 11) with a grade of C- or higher.
- 2.3 or higher UC GPA.
