

Articulation Agreement by Major

Effective during the 2022-2023 Academic Year

To: University of California, Los Angeles
2022-2023 General Catalog, Quarter

From: De Anza College
2022-2023 General Catalog, Quarter

Microbiology, Immunology, and Molecular Genetics/B.S.

IMPORTANT MAJOR INFORMATION

Listed below are the lower division preparation courses for the major as well as important details to review. **THIS MAJOR IS HIGHLY SELECTIVE. To be considered for admission, you must complete one year of biology for major with laboratory, one year of general chemistry with laboratory, one year of calculus and one semester of organic chemistry with lab by the end of spring before transfer. Completion of a second semester of organic chemistry or one year of calculus based physics is strongly recommended.** (If your college does not offer a two semester or a three quarter sequence in calculus based physics, it is recommended that you complete Physics 5ABC at UCLA after transfer). All courses must be taken for a letter grade. **For more information regarding this major and UCLA's transfer selection process, visit <https://mimg.ucla.edu> and <https://admission.ucla.edu>.**

PLEASE NOTE: the community college courses listed below have been approved to satisfy the preparation requirements for this major at UCLA, but they may not be exact equivalents of the UCLA courses listed.

ADDITIONAL NOTES

- UCLA's life science majors require the completion of extensive preparatory coursework prior to transfer, therefore, you must be admitted directly into a life science major; you will not be able to change from a non-life science major into a life science major.
- Students who have placed out of UCLA's Math 31A course based on AP/IB credit may be required to complete UCLA's Math 3C, 32A, or an equivalent course after transfer.
- The Calculus for Life Sciences courses listed below have been approved as substitutes for UCLA's Math 3ABC series through Spring 2019. However, students may be required to complete additional math courses after transfer to satisfy this requirement.
- Calculus 32A is NOT required for admission into the premajor; this course can be completed after transfer to UCLA.
- The community college statistics course included on this agreement has been approved as a substitute for Statistics 13, however it may not transfer as an exact UCLA equivalent.
- Students who take Life Sciences 30A & 30B must complete Life Sciences 40 or Statistics 13.
- UCLA's Chem 153A and 153L are upper division major courses that are recommended, but NOT required for admission into the pre-major. Transfer credit for these courses will be awarded via petition by the Chemistry department post transfer.

LOWER DIVISION MAJOR REQUIREMENTS

LIFESCI 7A - Cell and Molecular Biology (5.00)

BIOL 6B - Cell and Molecular Biology (6.00)

--- Or ---

LIFESCI 7B - Genetics, Evolution, and Ecology (5.00)

BIOL 6C - Ecology and Evolution (6.00)

--- Or ---

BIOL 6CH - Ecology and Evolution - HONORS (6.00)

LIFESCI 7C - Physiology and Human Biology (5.00)

BIOL 6A - Form and Function in the Biological World (6.00)

LIFESCI 23L - Introduction to Laboratory and Scientific Methodology (3.00)

BIOL 6A - Form and Function in the Biological World (6.00)

--- And ---

BIOL 6B - Cell and Molecular Biology (6.00)

--- And ---

BIOL 6C - Ecology and Evolution (6.00)

--- Or ---

BIOL 6A - Form and Function in the Biological World (6.00)
