### GENERAL INFORMATION FOR ALL MAJORS

All transfer applicants must satisfy University of California admissions eligibility requirements as well as meeting campus admission selection criteria. Completing the UC transfer admission requirements in English and mathematics by the end of the fall term prior to the fall application quarter makes an applicant more competitive for admission to UCSB. All admission requirements must be completed by the end of spring prior to transfer. For more information on UC admissions eligibility requirements and admission to UCSB, please visit the Admissions website: [www.admissions.ucsb.edu](http://www.admissions.ucsb.edu)

This articulation agreement lists course-to-course or sequence-to-sequence substitutions for preparation in the major. **Transfer students are strongly encouraged to complete as many major preparatory courses as possible prior to enrolling at UCSB. Completion of all major preparatory courses is not an admissions requirement, but some majors require certain courses to be completed prior to transfer with a specified GPA, and completion or near completion of major preparatory courses will help students move more efficiently toward graduation after transfer.**

Please note that the course "equivalencies" do not necessarily apply to UCSB general education. For information concerning satisfaction of UCSB general education requirements, please refer to the General Education/Breadth articulation agreement.

**Advanced Placement (AP)** and **International Baccalaureate (IB)** exams may or may not be used to meet course requirements, depending on the exam. Please refer to the [AP Chart](#) and [IB Chart](#) in the [UCSB General Catalog](#) for information on how we use AP and IB exams.

### ALL MAJORS IN THE BIOLOGICAL SCIENCES

Department of Ecology, Evolution, and Marine Biology (**EEMB**) majors: [Aquatic Biology, B.S.](#); [Biological Sciences, B.A. & B.S.](#); [Ecology and Evolution, B.S.](#); [Physiology, B.S.](#); [Zoology, B.S.](#)

Department of Molecular, Cellular, and Developmental Biology (**MCDDB**) majors: [Biochemistry-Molecular Biology, B.S.](#); [Biological Sciences, B.A. & B.S.](#); [Cell and Developmental Biology, B.S.](#); [Microbiology, B.S.](#); [Pharmacology, B.S.](#)

**PRE-MAJOR INFORMATION** - Students are admitted initially to Pre-Biological Sciences, not directly to the major. Admission to the full major is contingent upon achievement of a grade point average of 2.0 or better in pertinent courses completed at the University of California. Because the criteria are subject to annual review and revision, interested students should consult the department directly to obtain current information regarding specific additional criteria for admission to the full major. **Admission to the pre-major does not guarantee admission to full major status.**

**ADMISSION SELECTION CRITERIA** - To be admitted to the Pre-Biological Sciences major, all transfer students must complete the following:

1. One-year sequence of **General Chemistry with laboratory**, with no individual grade lower than "C"
2. Complete sequence of major-applicable **General Biology with laboratory**, with no individual grade lower than "C"
3. A cumulative **GPA of 2.7 or better** in the required courses listed above

For students to graduate within two years of transferring, we strongly recommend the completion of one year of organic chemistry with laboratory, one year of general physics with laboratory, and one year of calculus (or one semester each of calculus and statistics). Any of these courses completed with a grade lower than "C" might not satisfy course prerequisites at UCSB.

**\*\* ADVISORY NOTE FOR FALL 2024 APPLICANTS \*\*** (November 2023 application filing period)

New Admission Selection Criteria for Fall 2024: In addition to the General Chemistry and General Biology requirements listed above, transfer applicants must complete the following by spring prior to transfer:

1. **Calculus** courses articulating with UCSB's MATH 3A-3B or MATH 34A-34B with no individual grade lower than "C" (first semester/quarter must be completed by fall prior to transfer; a single course articulating with both MATH 34A and 34B is acceptable and it may be in progress in winter or spring prior to transfer) \*
2. One-year sequence of **Organic Chemistry with laboratory** with no individual grade lower than "C" (first semester/quarter must be completed by fall prior to transfer)
3. A cumulative **GPA of 2.7 or better** in the required General Chemistry, General Biology, Calculus, and Organic Chemistry courses

\* [Applicants intending to major in Biochemistry-Molecular Biology, B.S. should take courses articulating with MATH 3A-3B rather than MATH 34A-34B if possible. MATH 34A-34B would be acceptable for admission, but MATH 3A-3B are required to complete the major]
