

Articulation Agreement by Major

Effective during the 2022-2023 Academic Year

To: University of California, Santa Barbara
2022-2023 General Catalog, Quarter

From: De Anza College
2022-2023 General Catalog, Quarter

Financial Mathematics and Statistics, B.S.

GENERAL INFORMATION FOR ALL MAJORS

All transfer applicants must satisfy University of California admissions eligibility requirements as well as meeting campus admission selection criteria. Completing the UC transfer admission requirements in English and mathematics by the end of the fall term prior to the fall application quarter makes an applicant more competitive for admission to UCSB. All admission requirements must be completed by the end of spring prior to transfer. For more information on UC admissions eligibility requirements and admission to UCSB, please visit the Admissions website: www.admissions.ucsb.edu

This articulation agreement lists course-to-course or sequence-to-sequence substitutions for preparation in the major. **Transfer students are strongly encouraged to complete as many major preparatory courses as possible prior to enrolling at UCSB. Completion of all major preparatory courses is not an admissions requirement, but some majors require certain courses to be completed prior to transfer with a specified GPA, and completion or near completion of major preparatory courses will help students move more efficiently toward graduation after transfer.**

Please note that the course "equivalencies" do not necessarily apply to UCSB general education. For information concerning satisfaction of UCSB general education requirements, please refer to the General Education/Breadth articulation agreement.

Advanced Placement (AP) and **International Baccalaureate (IB)** exams may or may not be used to meet course requirements, depending on the exam. Please refer to the [AP Chart](#) and [IB Chart](#) in the [UCSB General Catalog](#) for information on how we use AP and IB exams.

TIME TO DEGREE

New UCSB students will likely need more than two years to graduate if a significant amount of lower-division pre-major courses are not completed prior to transfer. Students should complete Calculus I, Calculus II, Linear Algebra, Differential Equations, Multivariable and/or Vector Calculus, Micro Economics, Macro Economics, and a preparation for the major Computer Science course before transferring to UCSB if they wish to graduate within two years after transfer.

FINANCIAL MATHEMATICS AND STATISTICS, B.S.

Please visit the departments' websites to learn more about this major: www.math.ucsb.edu and www.pstat.ucsb.edu

PRE-MAJOR INFORMATION

Students are admitted initially to **Pre-Financial Mathematics and Statistics**, not directly to the major. Admission to the full major is contingent upon completion of all PRE-MAJOR courses with a grade point average of 2.5 or higher in courses completed at the University of California and with no grade lower than "C". **(Only UC grades go into the pre-major GPA. Transfer courses taken outside of UC may satisfy pre-major requirements, but they are not part of the pre-major GPA.)** All pre-major and preparation for the major courses must be completed with a grade of "C" or better. PREPARATION courses are excluded from the pre-major GPA but will apply to the overall major GPA. Because the criteria are subject to annual review and revision, transfer students should consult the department directly to obtain current information regarding specific additional criteria for admission to the full major. **Admission to the pre-major does not guarantee admission to full major status.**

PRE-MAJOR REQUIREMENTS:

Economics 1 and 2 (these courses must be completed with grades of "C" or better)

Mathematics 3A, 3B, 4A, 4B, 6A, 6B (these courses must be completed with grades of "C" or better)

Mathematics 8* or PSTAT 8* (must be completed with a grade of "C" or better)

*** Note:** Either MATH 4A, 4B, 6A, or 6B must be completed with a grade of "B" or better in order to take MATH 8 or PSTAT 8 at UCSB.

*** Note:** MATH 8 is a prerequisite for all upper-division Mathematics courses except MATH 117, 104A, 104B, and 104C. If you plan to take additional upper-division Mathematics courses, you must take MATH 8.

PREPARATION FOR THE MAJOR:

One course from Computer Science 8, 9, 16, or Engineering 3 (must be completed with a grade of "C" or better)

Economics 10A (must be completed with a grade of "C" or better)

PSTAT 10 (must be completed with a grade of "C" or better)

(Transfer applicants do not need to complete all of the Pre-Major Requirements and Preparation for the Major in order to be admitted, but should complete as much as possible before transferring so they will be prepared to progress in the major at UCSB.)

PRE-MAJOR REQUIREMENTS

REFER TO TOP OF AGREEMENT

ECON 1 - Principles of Economics-Micro (4.00)

ECON 2 - Principles of Microeconomics (4.00)

--- Or ---

ECON 2H - Principles of Microeconomics - HONORS (4.00)

REFER TO TOP OF AGREEMENT
