## **Articulation Agreement by Major**

Effective during the 2022-2023 Academic Year

To: University of California, San Diego 2022-2023 General Catalog, Quarter

From: De Anza College 2022-2023 General Catalog, Quarter

### **Bioengineering: Bioinformatics B.S.**

### **GENERAL INFORMATION**

DATED MATERIAL, SUBJECT TO CHANGE. PLEASE CONSULT CURRENT UCSD GENERAL CATALOG FOR ANY ADDITIONAL INFORMATION.

Effective Fall 2017, major preparation will be required for this major. For details, visit: <a href="http://admissions.ucsd.edu/MajorPrep">http://admissions.ucsd.edu/MajorPrep</a>

**General Advice:** Transfer students must have completed the following courses in order to be considered for admission to the Bioengineering: Bioinformatics major at UC San Diego.

- Calculus I-for Science and Engineering (Math. 20A)
- Calculus II-for Science and Engineering (Math. 20B)
- Calculus and Analytic Geometry (Math. 20C)
- Differential Equations (Math. 20D)
- Calculus-based physics series (Physics 2Aand 2B)
- Chemistry 6A and 6B

Note: An equivalent to UCSD's Chem 7L laboratory course is strongly recommended for students applying to all majors offered by the Department of Bioengineering although it is not considered for screening purposes.

#### Admission Requirements:

Prospective transfer students are able to apply for "direct admission" into the Bioengineering: Bioinformatics major by indicating their choice on the Undergraduate Admissions Application. Effective Fall 2015, the only way to become a Bioengineering: Bioinformatics major is to be directly admitted from community college as an entering transfer student. Although the actual GPA cutoff depends on the number of openings, at least a 3.2 GPA in the community college transfer courses and a 3.4 GPA in the above screening courses are needed to gain admission.

Prospective transfer students who have taken equivalent courses elsewhere (at institutions not appearing on ASSIST), may request to have transfer credit applied toward the department's major requirements by submitting an "Undergraduate Student Petition" together with a transcript and catalog course description from the institution where the course(s) were taken. These documents are reviewed for approval by the relevant UCSD department and the Bioengineering Undergraduate Studies Committee. "Undergraduate Student Petitions" are available online at <a href="http://students.ucsd.edu/my-tritonlink/forms/index.html">http://students.ucsd.edu/my-tritonlink/forms/index.html</a> and in the Student Affairs Office. This degree is accredited by the Accreditation Board for Engineering and Technology (ABET).

For additional information, please see the Bioengineering Department's Undergraduate Program website at <a href="http://be.ucsd.edu/undergraduate">http://be.ucsd.edu/undergraduate</a>

UC San Diego Advanced Placement (AP) and International Baccalaureate (IB) credit policies are detailed in the links below:

Advanced Placement (AP) <a href="https://www.ucsd.edu/catalog/pdf/APC-chart.pdf">https://www.ucsd.edu/catalog/pdf/APC-chart.pdf</a>

International Baccalaureate (IB) <a href="https://catalog.ucsd.edu/\_files/international-baccalaureate-credits-chart.pdf">https://catalog.ucsd.edu/\_files/international-baccalaureate-credits-chart.pdf</a>
